## OFFICE OF RESEARCH AND DEVELOPMENT

GENERAL NOTICE NO. 121

18 NOV 1980

The Agency Uniform Promotion System requires that annual targets be established for the promotion of qualified careerists at each level and that lists of the numbers of promotions actually made at each level be published after those promotions are announced. Shown below are the pertinent statistics for the "RR" Sub-Group:

| Promotion<br>to Grade | FY-80<br>Targets | FY-80<br>Achievements | FY-81<br>Targets |      |
|-----------------------|------------------|-----------------------|------------------|------|
| SIS-02                |                  |                       |                  | STAT |
| SIS-01                |                  |                       |                  |      |
| GS-15                 |                  |                       |                  |      |
| GS-14                 |                  |                       |                  |      |
| GS-13                 |                  |                       |                  |      |
| GS-12                 |                  |                       |                  |      |
| GS-11                 |                  |                       |                  |      |
| GS-10                 |                  |                       |                  |      |
| GS-09                 |                  |                       |                  |      |
| GS-08                 |                  |                       |                  |      |
| GS-07                 |                  |                       |                  |      |
| GS-06                 |                  |                       |                  |      |
| GS-05                 |                  |                       |                  |      |
| GS-04                 |                  |                       |                  |      |
| GS-03                 |                  |                       |                  |      |
| TOTAL                 |                  |                       |                  |      |
|                       |                  | D1 17 1 1/ E 1        |                  |      |
